

Over the past year, Cuyahoga SWCD has been working with WVIZ *Ideastream* and local “master” teachers to update the Water Quality Handbook to state science standards and create a new web-based tool adapted from the handbook. Funding was provided through a grant from the Ohio Environmental Education Fund.

The website has been completed. Local teachers and informal science educators conducted pilot projects in their classrooms and provided feedback.

Check out the website, and stay tuned for a Fall workshop.

The current website is <http://www.wviz.org/edsvcs/Water/index.htm>
This will be changing soon to www.lifedependsonwater.org

Please contact Amy Roskilly at 216/524-6580 ext. 22 for more information or to obtain a cd-rom with this information.

Project funded by the Ohio Environmental Education Fund Ohio Environmental Protection Agency – Office of Environmental Education
