## OHIO PRAIRIE NURSERY

A local provider of plants native to the Great Lakes eco-region, offers three Garden Kits.

### Kits for 2011: Rain Garden for Sun Rain Garden for Shade Butterfly Hummingbird Garden

Each Garden Kit contains 38 native plants of 10-12 species grown in a 38 deep. Each cell is 5" deep x 2" wide. Each Garden Kit will cover approx. 100 square feet.

## NATIVE PLANT BENEFITS

**Sustainability** After the first season they have the ability to reproduce and populate without watering, fertilizer, or other chemicals.

**Habitat** Serve as nectar and food source for pollinators; attract native animal and bird species.

**Water Quality** Deep root systems open soil pathways to allow rain water percolation; plant top growth filters pollutants and particulates improving water table quality.

**Aesthetics** Beautiful to the eye and alive with birds, butterflies, dragonflies, etc.

Each Garden Kit includes a variety of the below or similar species
