

Everyone lives in a watershed, and in Cuyahoga County everyone lives in the Lake Erie watershed.

A watershed is an area of land that drains or “sheds” water into a specific waterbody.

Because of this watershed connection, our activities at home, at school, at work, and throughout the community directly impact not only Lake Erie, but also our local waterways like Rocky River, Cuyahoga River, and Euclid Creek.

Every time you use the correct amount of salt in the winter, pick up your dog’s waste, responsibly take care of household chemicals, and reduce stormwater runoff on your property **YOU are making a positive impact on your local watershed.**
